HENDERSO N MALE ACADEMY, Granvil County, N. O.—H. D. BRACY, Principal.—In offering this School to the public, the Trustees flatter themselves that they have procured the services of a gentleman pre-eminently qualified to direct it with ability. He comes well recommended as a Teacher of the highest order; a Graduate, capable of teaching a thorough course, preparatory to entering the highest Classes in the University of North Carolina, and from the experience be has acquired in teaching, he flatters himself that he will be able to give undoubted satisfaction.

he flatters himself that he will be able to give undoubted satisfaction.

There is now nearly completed in the Town of Henderson, removed from the business of the place, one of the neatest Academies in the State, which has been built by the patriotic citizens of the place, bringing also to their aid the friends of education round about, and that too at a heavy expense, and it would be suicidal in us as Trustees not to place it on the best footing.

The gentleman whose services we offer to the public is a native of Virginia, by birth and education, and therefore has feelings allied with our own; as he wishes to make this permanently his home, he would ask all who know him to aid in this great work, the education of the heart as well as the head, and when this shall be done he can have the pleasing gratification of knowing that he has performed the part of the philanthropist—the scholar.

Henderson presents one of the finest fields for the encouragement of education in the State, combining health, morality and intelligence. It has also other advantages; it is easy of access, being situated immediately on the Raleigh and Gaston Rail Rand; also at the terminus of a branch of the great Western Stage Line, affording to all who may wish to patronize the School easy access.

The Publishers take pleasure in inviting the attention of the moral world to this charming production as one of the most remarkable ever offered to the public; and they confidently present it as one of the most touching and impressive volumes which have of the most touching and impressive volumes which have fallen from the press since the first issue of Mr. Warren's "Diary of a Physician." The papers composing this work are not mere fancy sketches, written for the purpose of a simple commercial speculation, but the written histories of fallen ones who have been missed; of lost ones who have been reclaimed; of Idleness which has been led to Industry; of Drunkenness which has thrown away the Cup'; of Poverty which has put on the garb of Comfort; of Despair which has been ungain to Hope; of Jerograpes which pair which has begun again to Hope; of Ignorance which has crept out of Darkness up to Light; and of Sinful Weakness which has thrown off Falsehood, Crime and Shame, and now walks firmly forth in all a Christian's strength The volume overflows with incidents which are real; with pictures drawn, not from fancy, but from life—the whole

invested with a freshness which can only come from the vital fount of truth. TO THE NEXT OF KIN AND THE DIS-TRIBUTEES OF EDWARD HERNDON, LATE OF CAMPBELL CO., VA.—Said Edward Herndon died in the year 1845, without issue, and by his will, after certain specific bequests, he directed that the balakee of his estate should be equally divided between his sisters, Sarah Sarauels, Elizabeth Baker, Catharine Durham, Mary Herndon and his brother, Reuben Herndon. This will was duly propated in Campbell County Court, and Y. W. Robertson qualified as Executor.

February 24th, 1854. NOTICE TO CORN GROWERS.—THE SUB-scriber offers for sale a peculiar kind of Corn known as the Canada prolific Corn, which excels any grain ever be-fore offered to the Southern Planters, both for beauty and increase. It is a handsome white torn, and produces from three to eight stalks from each grain, each stalk bearing two to three cars of Corn—and the suckers are as prolific niture kept in the best order.

THE TABLE shall constantly be supplied with the very as the original stalk, bearing an equal number of cars, procured a small quantity of this corn through the mail and planted nine grains in a common sandy garden, that had never received any other manure than from the stable and barn yard, and the result was eighty-six silks and fifty-eight ears! Had not the drought come upon it at the time it did, several other cars would have matured. 1 will send packages of one hundred grains each, postpaid, for one dellar, to any one remitting me that sum; and
I feel confident no man who invests this small sum for this
Corn will regret the experiment. This is not the "Sucker
Corn," that shoots at every joint—this species is as late as
the common Indian corn and will grow as tall. All orders
to be post-paid and addressed to
